

Your browser fingerprint **appears to be unique** among the 1,269,441 tested so far.

Currently, we estimate that your browser has a fingerprint that conveys **at least 20.28 bits of identifying information**.

The measurements we used to obtain this result are listed below. You can read more about our methodology, statistical results, and some defenses against fingerprinting in [this article](#).

Help us increase our sample size:        

Browser Characteristic	bits of identifying information	one in x browsers have this value	value
User Agent	11.69	3297.25	Mozilla/5.0 (Windows; U; Windows NT 5.1; en-US) AppleWebKit/534.7 (KHTML, like Gecko) Chrome/7.0.517.44 Safari/534.7
